

Who is Seth?

Seth was and is a non-physical entity who shared wisdom and knowledge about the greater reality of which we are all a part. He was compassionate and cared deeply about the human condition. He spoke to assist us in co-creating a better earthly experience for all. His vision is very much alive and his words have so much to teach us today.

It is Seth who coined the term:
“You Create Your Own Reality”

He offered thoughtful guidance for personal healing, spiritual development, and limitless creativity. He gave us useful instructions and maps for the exploration of consciousness, which we are all free to embark upon at anytime.

The Seth House

Preserving The Place Where It All Began

THE SETH HOUSE is the apartment building in Elmira, New York where Jane Roberts & Robert Butts lived from 1960-1975. This is the place where Jane channeled an entity named Seth. Seth's teachings are profound, transformational and life changing.

Together they wrote **45 books**, which worldwide have sold **8 million copies**, and have been translated into **14 languages**. All of their books are still in print and their popularity continues to grow internationally.

We are happy to announce that efforts are underway to acquire this old building, restore it, and open it up as a public place for all to enjoy.

The Seth House is a 501(c)(3) Non-Profit Organization

We have created a legal structure to protect the building well into the future, and formally acknowledge what took place within these walls.

A major event happened here, not so long ago, and it's time we honor and preserve this historic place while we still can. The intention is for the building to be made open to the public as a new community center, and for personal healing, educational and research purposes.

Cleaning Up this 1 Prominent Building in a Key Location will Uplift the Neighborhood

We welcome community support to help restore and beautify a legendary building that is currently in dire need of repair. We invite new friends to be part of this big adventure. Bring your creative ideas, join our efforts, and share this vision.

Let's Create a Beautiful Place Together

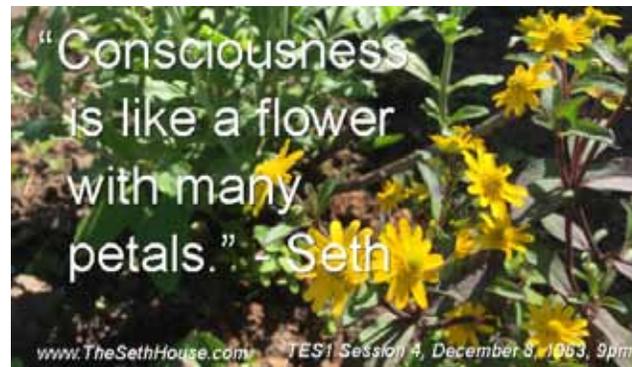

You would think that a world famous author like Jane Roberts would be honored in her own home town. All her books are still in print and you can readily find her bestselling works on the shelves of major bookstores. Giving her the recognition she deserves is long overdue so it's about time we did just that.

We hope to create a special place that promotes inner peace and wellness, and encourages people to explore and discover for themselves their own spiritual connectivity with what Seth called "**All That Is**". Seth said we are all part of a vast multi-dimensional reality of great beauty and profound significance. He encouraged us to explore the true nature of our own eternal souls.

This Old House Can Only Benefit Elmira

Fans of their books from around the world will want to come visit here. This would bring "Seth tourism" and with it a positive contribution to the local economy.

Elmira can take great pride in having had such notable residents. Let's remember the awe-inspiring events that happened here and touched the lives of millions of people.

Support Us With Your Donations

Please Contribute Time • Energy • Money

We are sincerely asking for your donations to make **The Seth House** a dream come true. We have been working on this project since 2017. We are growing strong and we have a great team. All the elements are in place for this to become a truly amazing place in Elmira.

We are raising funds so the 501(c)(3) Non-Profit Organization can purchase this building, restore it, and open it to the public for community enjoyment. Now more than ever your support means so much.

The great joy of this project is we know that together – We Can Do It!
